**Via Pontaccio 19 – Studio Baldessari** Press preview: 11/04 from 15:00 to 18:00 pm

**Via Ciovasso 5/ Via Dell'Orso**

## **Wave, sea-green wood flooring**

*Corà Parquet will strengthen its innovative view at forthcoming Fuori Salone 2016 in Milan presenting the new version in glossy and matt green-grey shades of Wave, the unconventional, charming wood flooring*

A sequence of wavy shape strips whose colors tone from green to sea-green and grey, a wood flooring with delicate design and original shades enhanced by the exceptional and poetic potential of wood.

Among project and design, the new colors of Wave allow a new way to enjoy the modern, unconventional living, creating textures of sophisticated material and colors.

The wavy look of the strips in pre-finished European Oak takes inspiration from the unrectified planks typical of Northern European Countries, that used to be laid in the past respecting the natural irregular shape of logs.

It is the combination of color/finishing that highlights the wavy shape of the flooring. The green-grey nuances increase the offer made up of three more stylish colors (black, grey, white) combining the pure look of the *matt* finish with the elegance of the *glossy* one.
